**We are an AMA chartered R/C model aviation club located west of Pocatello near the Pocatello Regional Airport. Our flying field officially named Geisler Field is on an eight acre parcel which includes a 400 X 44 foot paved runway surrounded by lawn turf on both sides. Eastern Idaho Aeromodelers club meetings are held on the last Wednesday of each month at the Marshal Public Library, 113 S. Garfield, Pocatello at 7 PM except during summer months the meetings are held at our club's flying site, Geisler Field. Visiting spectators and AMA R/C pilots in good standing are welcomed at our flying site.**

---

All,

The new officers have officially filled their new roles, congratulations all. I have taken over for Randy Shiosaki as the News Editor so please send me your comments and pics if you would like them published in the newsletter.

During the October meeting it was brought up to do a winter build during the club meetings of an electric cardboard kit (Flite Test Bloody Baron) to build interest in some friendly electric pylon racing as well as possibly getting some more interest for new members.

Do to the next meeting being the evening prior to Thanksgiving the November meeting will be held on **November 18<sup>th</sup>** and will be held at the Bill and Karin Eames Advanced Technical Education and Innovation Complex, 1999 Alvin Ricken Drive. There is parking on the East side of the building. Also there will not be a December meeting.

A fellow hobbyist has passed away and his hobby items are being sold Friday and Saturday in Soda Springs at 214-264 Ashland Dr. if interested.

For those who are done flying for the winter remember to charge your batteries for winter storage.

Hope to see you at the next meeting!

Dave
